<p>Growth</p> <ul style="list-style-type: none"> - This work is better than work I have previously done - This work shows more thought - This work shows more skill - I have worked on the problems I had on the last project <p>Creativity</p> <ul style="list-style-type: none"> - My work is original, innovative, and takes risks - I used the materials in an interesting and creative way - I created something that was unexpected <p>Care and Effort</p> <ul style="list-style-type: none"> - I took my time on this piece. I did not rush to get it done. - I used class time efficiently - The texture of my piece is intentional. I have removed any unwanted surface texture (canvas print, fingerprints) - The lip and foote have been dealt with in a caring manner - I have removed all clay boogers from my piece - Overall, my work looks finished and well crafted - of high quality <p>Project Targets</p> <ul style="list-style-type: none"> - I can sketch my ideas and prepare a plan for how to carry them out - I can evaluate my slabs and decide when the clay is ready to begin construction - I can slip and score my slabs together effectively - I can effectively scrape through a layer of colored slip to reveal the lighter color clay beneath creating a design that consists of equal parts of dark and light - sgraffito - I can use the elements and principles of design to construct a surface that is interesting and cohesive 	Developed	Developing	Incomplete/ Needs Work

Goals

Hard Slab

1. Explain to me the differences in working with hard slabs vs soft slabs.
2. What stage are your slabs in when making a hard slab piece? How do you know when your slabs are the right consistency?
3. Explain to me the process of sgraffito.
4. What are you most proud of when looking at your piece?
5. What do you think you could improve upon for next time?

Self evaluation - write what grade you think you deserve (use A, A-, B+ etc)
