BRIEF summary of discussion, activities, and work conducted (bullet points will suffice):

We discussed the bullet points listed below and agreed that everyone will create their version of the Aesthetic Discipline assessment for us to discuss at our next collaboration for common assessment.

For our next meeting we need to do the following:

- Each teacher is in the process of adapting the elements of *Aesthetic Discipline* to the needs of their individual class. We will post as they are developed and re-worked.
- We will continue our discussion on common assessment beyond Aesthetic Discipline. More to come...
- Each teacher is now looking at the targets for their entry level courses to make sure the language is student centered. We will share at future meetings.

2 minute feedback loop: commit to sharing verbal feedback about the meeting. Capture these thoughts here:

We are all on the same page...not much to discuss
